Certificate number: 1131251S_02

Water Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Fixtures			
The applicant must install showerheads with a minimum rating of 3 star (> 7.5 but <= 9 L/min) in all showers in the development.		V	-
The applicant must install a toilet flushing system with a minimum rating of 4 star in each toilet in the development.		V	~
The applicant must install taps with a minimum rating of 4 star in the kitchen in the development.		_	
The applicant must install basin taps with a minimum rating of 4 star in each bathroom in the development.		_	
Alternative water			
Rainwater tank			
The applicant must install a rainwater tank of at least 5600 litres on the site. This rainwater tank must meet, and be installed in accordance with, the requirements of all applicable regulatory authorities.	~	→	~
The applicant must configure the rainwater tank to collect rain runoff from at least 100 square metres of the roof area of the development (excluding the area of the roof which drains to any stormwater tank or private dam).		~	~
The applicant must connect the rainwater tank to:			
all toilets in the development			
the cold water tap that supplies each clothes washer in the development			-
the one materials approved administration in the development.		~	~
 at least one outdoor tap in the development (Note: NSW Health does not recommend that rainwater be used for human consumption in areas with potable water supply.) 		~	~
Thermal Comfort Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifie
Simulation Method			
The applicant must attach the certificate referred to under "Assessor Details" on the front page of this BASIX certificate (the "Assessor Certificate") to the development application and construction certificate application for the proposed development (or, if the applicant is applying for a complying development certificate for the proposed development, to that application). The applicant must also attach the Assessor Certificate to the application for an occupation certificate for the proposed development.			
The Assessor Certificate must have been issued by an Accredited Assessor in accordance with the Thermal Comfort Protocol.			1
The details of the proposed development on the Assessor Certificate must be consistent with the details shown in this BASIX certificate, including the Cooling and Heating loads shown on the front page of this certificate.			
The applicant must show on the plans accompanying the development application for the proposed development, all matters which the Assessor Certificate requires to be shown on those plans. Those plans must bear a stamp of endorsement from the Accredited Assessor to certify that this is the case. The applicant must show on the plans accompanying the application for a construction certificate (or complying development erdificate, if applicable), all thermal performance specifications set out in the Assessor Certificate, and all aspects of the proposed development which were used to calculate those specifications.	~	~	~
The applicant must construct the development in accordance with all thermal performance specifications set out in the Assessor Certificate, and in accordance with those aspects of the development application or application for a complying development certificate which were used to calculate those specifications.		~	~
The applicant must construct the floors and walls of the dwelling in accordance with the specifications listed in the table below.		100	

Floor and wall construction	Area			
floor - concrete slab on ground	All or part of floor area square metres			
floor - suspended floor above garage	All or part of floor area			
Energy Commitments		Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Hot water				
The applicant must install the following hot water system in the development, or a system wit instantaneous with a performance of 6 stars.	h a higher energy rating: gas	~	~	~
Cooling system				
The applicant must install the following cooling system, or a system with a higher energy rational airconditioning; Energy rating: EER 3.0 - 3.5	ng, in at least 1 living area: 3-phase		V	V
The applicant must install the following cooling system, or a system with a higher energy ratin airconditioning; Energy rating: EER 3.0 - 3.5	ng, in at least 1 bedroom: 3-phase		~	~
The cooling system must provide for day/night zoning between living areas and bedrooms.			✓	~
Heating system				
The applicant must install the following heating system, or a system with a higher energy ratio airconditioning; Energy rating: EER 3.0 - 3.5	ng, in at least 1 living area: 3-phase		~	~
The applicant must install the following heating system, or a system with a higher energy ratin airconditioning; Energy rating: EER 3.0 - 3.5	ng, in at least 1 bedroom: 3-phase		~	~
The heating system must provide for day/night zoning between living areas and bedrooms.			✓	~
Ventilation				
The applicant must install the following exhaust systems in the development: At least 1 Bathroom: individual fan, not ducted; Operation control: manual switch on/off Kitchen: individual fan, ducted to façade or roof; Operation control: manual switch on/off			ž	~
Laundry: natural ventilation only, or no laundry; Operation control: n/a			Ü	
Artificial lighting			Vo.	
The applicant must ensure that the "primary type of artificial lightling" is fluorescent or light en following rooms, and where the word "dedicated" appears, the fittings for those lights must or light emitting diode (LED) lamps:				
at least 5 of the bedrooms / study; dedicated			~	~
Energy Commitments		Show on DA plans	Show on CC/CDC plans & specs	Certifier check
at least 3 of the living / dining rooms; dedicated				
the kitchen; dedicated				
all bathrooms/toilets;			J	J
the laundry;			J	J
all hallways;				~
Natural lighting				
The applicant must install a window and/or skylight in the kitchen of the dwelling for natural li	ghting.	_	_	_
The applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development of the applicant must be app	ent for natural lighting.	~	~	~
Other				
The applicant must install a gas cooktop & electric oven in the kitchen of the dwelling.			~	
The applicant must install a fixed outdoor clothes drying line as part of the development.			~
