RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

We strongly oppose the construction of a telecommunications facility opposite our home on the Abbott Road Sports Fields. The Huston Parade location is completely misleading. The re-generating bushland and lagoon area is undergoing rehabilitation that is fragile and we do not need an unsightly telecommunications tower built in the middle of it. We are currently Optus customers and we have never had an issue with reception. An unnecessary electromagnetic radiation infrastructure so close to our home, local school and sporting fields that are used on a regular basis is also a major health concern.
