**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I object to further plans to develop more units in this vicinity due to the Wild life corridors which sustains unique wildlife. In a time when there is massive amounts of environmental damage occurring across Sydney and in fact the whole state there must be a change to prevent our wildlife from becoming extinct . This is a very real fear and it is not good enough!

Maintain the wildlife corridors. It is most important.
