RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

This unbridled development must be reined in.

I get it that the federal government puts pressure on the states to settle more numbers, and that the federal government is pressured by international interests. But we need to make a stand, our very own life support systems, not only the homes of indangered creatures are at risk now. I've seen the overcrowding in other countries, the pollution. We are not the lucky country, just a new country, and if we continue down this path, soon here to there will be little left.

We seriously need to look at reducing our birth rate, amending our taxation system and wrestling back control from international corporations and the commonwealth, or we will end up a suburban wasteland with little opportunity and beauty.

Thank you.
