Northern Beaches Council

Dear Councillors.

Re: DA2017/1274 Bayview Seniors Housing and Golf Course

I would like to write in support of the Submission to council on the above matter.

As a member of Bayview Golf Club, and a life-long resident of the northern Beaches, I am passionate about our community, the benefits of recreation activities, our beautiful natural environment, and the support of facilities to allow residents of the peninsula to remain in the area when the time to downsize and enter assisted living may be necessary.

I am in full support of the above mentioned submission, as it addresses several points, including the planting of additional trees to enhance the wildlife corridor, will improve water management options, allow for an improved sporting facilities on the peninsular, and most importantly, allow for seniors living amenities to allow residents of the northern beaches to remain in the area they love as they advance in their years, facilitating their need to remain in the community they have lived in and built a life around, over many years.

Your consideration in favour of this application is important to many residents of the northern beaches, and the members of the Bayview Golf Club.

Yours Sincerely,

Amelia Toohey
