RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please do not build on this proposed site it is a designated wildlife corridor and this is as it should stay.

Building on this land should never be a consideration, surely we respect our wildlife more than this.

why on earth would our planners consider such a move it is a designated wildlife area a no go area,

trusting you will see the folly in this move, there would be plenty of places more suitable.
