RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I strongly oppose the development application put forward. Building in Wildlife Corridors is totally unacceptable. We have to learn to live alongside our wildlife & not expect them just to find somewhere else to live. You have endangered species living here, territorial species living here. It's time the council stepped up & did the right thing for our totally Unique Native Species. I'm appalled that you have even considered doing this. I strongly recommend you leave this Wildlife Corridor as is. .
