RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Regarding the Seawall construction at Collaroy:

I feel disappointed with the severe look of concrete on the beach and I was under the impression that our beaches would be treated more respectfully. It definitely does not look natural and it saddens me that this was the solution arrived at after so much consultation. Owners of these properties knew the risks of erosion. Concrete does not belong on the beach.

Regards,
Tracey Byrne
