RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

As a resident of Newport for the last 25 years I am becoming more and more disappointed by the developments in our village. The proposed development of Robertson Road is one that should be monitored carefully by Council. There is an opportunity here to create a heart of Newport, off the busy main road , a safer, quieter area for people to gather and enjoy the ambiance of our seaside town. I strongly support a cohesive plan for Robertson road. It must be developed with a master plan in place in order for this valuable centre of our village not to be lost to driveways and carparks. The opportunity to enhance our place on the Northern Beaches is within reach if council reject this development proposal and considers some more cohesive proposals which take into account the residents of Newport and their desire for a long term vision to see Newport become the thriving, popular, community focused village that it once was.

Sincerely
Tina Berkeley
