**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I am most disturbed to learn the current proposal for a large number of home units in Bayview will destroy the existing high priority wildlife corridor in the area. wildlife corridors are the last refuge for our unique and valuable species and their continuation must be maintained and protected.

Massive overdevelopment of such sites is very poor policy and very ominous for the future existence of our natural heritage.

I urge you to reject this proposal.
