RE: DA2018/0339 - 2 Macpherson Street WARRIEWOOD NSW 2102

I am against this application. The site was originally zoned not suitable for residential development and now the applicant proposes to develop it for housing lots. Meriton don't build houses nor do they develop land for housing. I am sure they are applying for these 22 housing lots and if successful would come back with an application for a change to allow them to build apartments, which is what they specialise in. Keep it as open space or playing areas but don't allow this site to be a block of flats by stealth.
