**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

We have had many outings in many areas around the Northern Beaches over the years, some longer than a day's picnic. Invariably we admire the animals and birds which appear from time to time, different from the creatures which live in our regular surroundings. Please do not spoil this precious, diminishing area where flora and the fauna which relies on it, become threatened. They cannot regenerate once they become extinct!!
