**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Years ago we were promised by our Government that they had a wonderful plan to save our wildlife and planet by introducing nature corridors that would be crowned land. Now our Governments are telling us that money is much more important. No wonder we don't trust our Governments any more. It seems developers and overpopulation is more important just to make the rich richer. The whole running of our country is an utter disgrace.
