RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100

Is this for 32 beds (according to this proposal) or 36 beds according to the letter sent by Daniel Milliken? Either way locating 30+ people needing frequent reliable public transport or local parking is madness. Over the past 5 years the street parking specifically locally in (Nargong), but anywhere around Allambie has become impossible making local roads one way & dangerous (Goondari) due to heavier density congested living. I know parking is included in this proposal...30+ spots???????

I think we are a very inclusive community but we have just devolved the congregate living at Sunnyfield into the community. Lets not start up the hostel model again. However we look forward to the expected rate reduction as the value of local properties is reduced with living density increasing.
