RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

The proposed development in the wildlife corridor at Bayview should not go ahead because the location is too sensitive to change. I spent many years as a Bushcare volunteer with Pittwater Council and I know just how important this piece of land is to the welfare and transit of wildlife. Kooroowall Reserve nearby is home to mistletoe birds and rare orchids that wouldn't be there if proposed development hadn't been stopped there. I think we have to look at what we are handing on to our next generations and appreciate that in Bayview the few reserves and vacant land left is vitally important to the survival of endemic species and the pleasant enjoyment of life in The Northern Beaches.
