Dear Planning Panel and Rob Stokes,

I can't believe, after all the local community protestations, that you are considering planning consent for this development. We (YOU) have this great opportunity to give Newport a heart, in Robertson Road, and you are about to approve a development that destroys this ideal and necessitates residential vehicle access.

For God's sake, realise that you are responsible for destroying Newport as a community if you determine to approve this application! PLEASE PLEASE PLEASE do not allow this irreversible planning debacle to proceed!

Regards

*David Goodman*
