RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Officer,

I strenuously object to the wildlife corridor being compromised by development. It is not only the destruction of vital and scarce habitat but also the erosion of OUR quality of life.

What makes this part of NSW unique and a desirable place to live should not be frittered away for profit to a few disinterested business people..

The real wealth lies in sustainable quality space for all species.

Sincerely,

Julie Mattocks
