**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

It cannot be stressed enough how important this wildlife corridor is. The risk to biodiversity is extremely serious. It will have broad ramifications. All this is just a drive for (more) money in certain people's pockets. The people pushing this proposal have no interest whatsoever in the natural attributes of the area that they plan to ruin irrevocably. PLEASE, it is vital that this corridor remains untouched.
