**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Please do not approve these plans for such a massive development. Surely a green corridor through this area would be advantageous to both wildlife and constituents of your council. While I do not live in your council area I have previously lived in the Kuring-gai region and appreciated that council's then green policy and hope that the Central Coast Council maintains its wildlife corridors. We receive great joy from all the birds and wildlife in the bush behind us.

I hope sanity will prevail not greed !  
Thank you for your consideration.
