Freshwater NSW 2096

RE: DA2017/1294 - 9 Lawrence Street FRESHWATER NSW 2096

The community in Freshwater had consulted with the Council, over a long time and in good faith, to develop plans for the future of the village of Freshwater and set certain standards and use controls in the village. This was done to regulate the development within socially acceptable norms for the benefit of all the good citizens. No citizen is allowed to thumb their nose at these controls and regulations as otherwise if one is allowed, then the question is why can't we all?

The Council employs staff, some very well paid and professional people, who without much effort can see that this application breaches or fails to meet the minimum required development standards set down for this precinct.

Warringah LEP 2011

Warringah DCP 2011

Amendment to Warringah DCP, Part 5 Freshwater Village

No Development Application should firstly be considered or approved until it meets the communitie's expectation and standards.
