**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species.

This is Biodiversity land and should not be destroyed by this 85 Unit development.

A wildlife corridor must be respected and allowed to fulfil its purpose.

This DA was refused by the Regional Panel for SEPP Seniors Housing in the Bayview Wildlife Corridor on many significant grounds including Substantial and Adverse impacts on the environment.

There has been overwhelming community objection to the apartments. The wildlife are irreplaceable. Humanity is not a vulnerable species and we are not in any danger of becoming irreplaceable. The intended development is not essential. The apartments should be placed elsewhere, at a location which does not interfere with designated land.

The intention of a wildlife corridor and biodiversity area is to minimise human development in order to protect other species, who share this world around us. It is a commitment.

Yours faithfully  
Mary Atkinson
