RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please keep the native environment as the top and only priority for this area by rejecting the development application. Further, please ensure that this land is not subject to future development. In my extensive travels in Australia and overseas I have seen that countries, states, shires etc that value and preserve their native environments are doing better economically and socially than places that see development at all costs is the way to go. For example, Alaska has kept and restored vast areas of native forest, along with the wildlife, that attracts tourists in their thousands. Likewise New Zealand, and Scandinavian countries. Be an example for good, not for developers mindless destruction of our - Australia's - natural beauty and wonders. Thanks very much.
