RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I now live in the Blue Mountains but I was born in Sydney and grew up there. This kind of development is ruining the country. There has been a delicate balance between nature and people for a long time; now the balance is tipping and nature is under severe threat. Why not protect valuable bushland? Why allow developers to make their fortunes by destroying what, arguably, belongs to all of us? This is a gross overdevelopment on a sensitive site. I humbly submit that, if these horrible blocks of flats are approved, there should be a plaque or prominent monument erected displaying the names of councillors who voted in favour of the DA; their names would then be remembered in the district by future generations as the destroyers of our lovely land. Similarly, if the land is saved from this folly and greed, I would like to see recorded and acclaimed the names of those who voted against the all-too-usual piecemeal ruination of our country.
