**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099**

As a Community member I oppose the erection of an Optus Mobile Phone Tower in our local reserve. Reasons for this are:

This proposed tower is within close proximity (350 - 500mtrs) to Curl Curl North Primary School with over 900 students, in addition to being in even closer proximity to sporting grounds which our children use through out the week (as our school is under construction therefore this area is where they play at lunch) and weekend for sports.

The area for the proposed tower has been worked in tirelessly by community members to ensure its natural environment is protected and preserved. The tower is not in keeping with the environment and by all accounts will stand out significantly. It is also in a zone where half of the area it projects to is in the ocean or surrounding sand dunes, lagoon and parklands. This does not make sense. Why is there no consideration for the location of this tower to be in an industrial area that will minimise the impact to our school children, community, environment and provide coverage for areas other than the ocean?
