RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 to develop 7 apartment buildings in the middle of a designated high priority wildlife & coastal corridor, home to many vulnerable species.

The apartments, if they are really required at all, can surely go somewhere else, but the wildlife cannot be relocated. Once it has been lost it is lost forever and another feature that actually makes this part of the northern beaches an attractive area to live and visit will be destroyed by a developer. This is not NIMBYism - I am a wildlife enthusiast but not a resident of the area - I live about 20 minutes drive away. However, I do come to Bayview and surrounding suburbs to enjoy the wildlife that makes it such a special area.

This is Biodiversity land and has been identified as such. That decision was not a temporary thing and it should not be casually set aside to allow the area to be destroyed by this 85 Unit development.
