RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

STOP THE 5 ACRE APARTMENT DEVELOPMENT IN THE BAYVIEW WILDLIFE CORRIDOR.

I am not from NSW, but from Victoria where we also see too many wildlife habitats ruined by human construction. Our native wildlife are being quickly eradicated unnecessarily and greedily, way too quickly! Please, you will win the hearts of many if this development does not go ahead and also help dramatically to save many species from extinction. I object to the amended plans for DA2017/1274:

This proposal will still destroy 5 acres of the wildlife corridor and remove more than 140+ remnant trees and threaten 8 endangered species including our Powerful Owls.

This development will cause irreversible damage to the Bayview wildlife corridor and we request it be stopped. This land should be permanently protected from development. This development will be a 5 acre blockage of the wildlife corridor. Council this is biodiversity land, and a high priority wildlife corridor. Is this large Seniors development which is out of character with the surrounding area, legally permitted on this land? If so, it clearly should not be!

Concerned,
Lisa Phelan.
