RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

It doesn't matter where you live they make green belts and wildlife corridors then when they are established they decide to rip them out. In the 1960's we were told look after the green belts or our country would become a bigger desert every year .now its happening ,has been for some time. But no one stops and says is there another way around this???? .Before IT IS TOO LATE.!!!
My grandchildren are 6th n 7th generation Aussie .My forefathers built this country and fought in Every War to build a future not a barren lifeless desert.
