Re: DA 2020/0661

I oppose the construction of an Optus mobile communications tower at John Fisher Park near the Curl Curl lagoon. The construction of a large communication tower here is in conflict with the natural scenic values of this parkland area and has no place here. Over the last thirty years rehabilitation of this area from what was a dump has included sports fields, a cycle/walk track, and an established riparian zone, all of which are enjoyed by passive and recreational pursuits. A tower is incongruous to all this and an alternative site should be sort in an industrial area, not an area of open space which is enjoyed by the community. This is for health reasons as well as ascetic reasons. Look for a site somewhere else like the Brookvale industrial area. This is where the site for the storage facility for sewage overflow was found after the public outcry over the short sightedness in initially targeting potential sites at Manly Selective High, Freshwater Campus and John Fisher Park.
