RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

There is no point in having a designated high priority wildlife corridor if every planning permit to develop land and destroy habitat is granted.

I strongly object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species.

I urge you to reject this and all future development applications on this land.
