RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I have reviewed the amended plans and documentation in this development. I refer to my initial submission, and confirm that my initial objections remain unchanged. The changes the developer has made are so minor, it is clear that they have not listened to the community. A development of this size and height is completely out of touch with the area which are all single dwellings and large blocks. The fact it is over 55's living, and therefore other factors such as significant extra lighting legally required etc, creates a huge impact to the neighbours, both human and animal. The only people who want this development are those who will profit from it greatly. It is completely out of touch with the wider community.
