RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Taking into consideration the WHOLE picture needs to be more important than the opportunity for a slice of profit.

This kind of thinking is so short term and it will end up costing us more in the long term.

Please take the time to consider long term impacts. Are we going to keep filling every space with more apartments?

Do we have no obligation to consider other living species and our surrounding environment and ecosystems?

Will we be complaining once our native species become extinct like we had no contribution?

Please value the suggestions of the people that understand biodiversity and environmental impacts.

Please take the responsibility of a true leader and do the right thing for the future.
