**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW
2099**

Hi, I am all for the construction for a Telecommunications Tower in North Curl Curl. This is because the current infrastructure is insufficient to complete phone calls on any Mobile Service, or Work From Home on a regular basis.

I cannot stress enough the importance of having a working Mobile Phone service along Headland Road, or just below it, in an Emergency. Right now I have to use Internet Voice Services because with the current mobile service - the dropouts are too frequent.

Further, the quality of the Internet Service in the area is not adequate for working from home in the long term. To continue my job, I will need to catch 2-3 buses each way 5 days a week (or 2 buses and a Ferry, or Tram/Train/Ferry/Bus connections). This will definitely add to my Carbon Footprint and limit the enjoyment and use of the park which I pay Rates to use.

I believe that an adequate solution can be worked out to accommodate for the native habitat and the needs of residents.
