RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100

I wish to object to this proposed development as I feel it is completely inappropriate. Our family has many concerns about the type of crowd it may attract to our family oriented area which would therefore put our kids at risk too. We are a residential area and we wish to remain that way, meaning we do not want any big developments/buildings in our area, overlooking our houses. We currently have a great community for our kids not just to grow up in but to thrive in and we would hate to put an end to this with more traffic and people going through our relatively calm streets. There are many kids in this suburb walking to and from school, riding bikes around and playing on the streets without any worries but having more cars and people around would jeopardise this. My 4 boys for example love riding their skateboards and playing rugby around our streets and going up to the local ovals but with more cars and people this would put an end to their fun. As a resident of Jennifer ave, this proposed development would be in direct sight of our house and therefore will not just have people looking into our house constantly as we do not have blinds but will also act as an eye sore as we look outside of our house. To allow this development to go ahead would be ridiculous as we would hate to change the look and feel of our residential community. Consent to this development must not be granted under any circumstance.

Regards,
Louiselle
