**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099**

DA 2020/0661 - RE-Notification  
Abbott Roads grounds - John Fisher Park Field NO. 5 - Lot  
7356/1167221 Huston Parade NORTH CURL CURL  
Construction of a Telecommunication Facility with associated equipment.

Reasons we say NO to this development:

1. Previous community agreement from council that no towers were to be erected in public parks and reserves,
- 2 lack of community support: 2 previous attempts yielded overwhelming community opposition to a tower of any kind.
- 3 insufficient need> no data provided on numbers of people who would benefit. Emergency calls can be made on any network.
- 4 adverse visual and social effect. Large numbers of people use and enjoy. Residents and other users value the open space and views. don't block it with an ugly tower.
- 5 Plan on Management should not allow it. It's too close to the bank of the lagoon in what is called the "riparian zone" . This is an area under rehabilitation.
- 6 Undesirable precedent. Once one telco is allowed to build, others may co-locate or be permitted to build more towers in the park.
- 7 it is understood that Council agreed not to permit permanent structures in the park
- 8 Keep big business out of our park, the park is for the people not big business.
- 9 Not clear exactly where the tower will be constructed.

We strongly oppose the construction of the proposed development

Judith and Kevin Hayden
