Subject: DA number DA2017/1274 Bayview Seniors Housing and Golf Course

Dear Sir

As a member of Bayview Golf Club of almost 30 years standing I would like to express my support for the above application. The development will result in significantly improved water management and flood mitigation which has been a major problem in the past. There will also be additional tree plantings.

Additional seniors accommodation is vital for our ageing population especially if it can be accomplished in an environmentally friendly manner as proposed in this development.

Improved community and sporting facilities which the development will provide are another benefit.

Regards

Greg Whyte
