Subject: DA2017/1274 objection

I would like to submit an objection to DA2017/1274. I understand that if this development were to go ahead, at least 100 trees will be removed. It is unacceptable to remove trees in such an important wildlife corridor and home to threatened species. The video clip on your webpage proudly shows a connection to the bushland of The Norther Beaches but this misleading if precious habitat continues to be destroyed in favour of development. Please not not approve this development.

Thank you
Nola Hancock
