RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please consider the extreme importance of the wildlife corridor in the proposed building of large proportions for such a sensitive area. There is a lot of development along the Northern Beaches area and construction should be kept to an absolute minimum to enable a continuum of safety for wildlife in this very special area. We do not need such development in delicate natural corridor. Thank you, Joanne
