RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

It is unbelievable - that allowing the constructing of these units will impact on wildlife, their safety/travel and means of safely existing and that this is not a remote consideration by the planners, Council or other interested parties. Even though I live in Queensland, I have elderly relatives who live in the area of this proposed development. There is nothing eco friendly about this in any way and in fact it will be a total blight in many ways. Please reconsider this plan.....it is not too late.
