**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Hi there,

I am deeply against this proposal to destroy native land that is a home to many species of animals.

As humans, we have already destroyed so much, how much more until we have destroyed it all?

Please do not tear down anymore of our native land, this is special to me and so many others. surely there are places you can build homes where we aren't tearing down trees and killing native species to our country. species that are already under threat because of humans.

thank you, Jade
