RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please protect the High Priority Wildlife Corridor in Bayview. Even though I live in Victoria, I am gravely concerned at the effect human development is having on these continually disappearing areas for wildlife. We are in a dire situation already with climate change and loss of vegetation and wildlife. Please use your common sense and protect this precious resource for the benefit of all living things.
