**Subject:** Att Daniel Milliken

Dear Daniel,

As we look towards the future of our communities and our the environment for our children, I plead with you to support the people of Allambie in not letting these developers use loop holes in SEPP to build a “fake” boarding house on the corner of 60 Binalong Ave, Allambie Heights. I was horrified to find out that there was not a stop or hold on the Boarding House DA’s while the legislation was being amended. This DA should retrospectively have the amendments to the legislation enforced. Please support this view as you go forward representing our Community.

My preference would be that affordable housing be built within the framework of the current suburb i.e Town houses/ villas. However this DA is not with the suburbs look or feel and is out of place.

Thank ing you for your time.

Regards

Rebecca Schopen

Resident of Allambie Heights.
