

Waste Management Plan - Ongoing Use of Premises

Site Address:	<i>Lot 24, 6 Orchard Street, Warriewood 2102</i>
Brief Development of Proposal:	<i>Multi-unit Residential and basement carpark</i>
Type of Dwellings:	<i>Multi Unit Residential</i>
Number of Dwellings on Site:	<i>25</i>

Residential Garbage	
Number of Rubbish bins allocation (one x 240L per 3 units):	<i>9 bins</i>
Number of Recycling bins for Cardboard allocation (one x 240L per 5 units):	<i>5 bins</i>
Number of Recycling bins for Glass/containers allocation (one x 240L per 5 units):	<i>5 bins</i>

Brief description of the proposal

Residents will take their own rubbish (waste and recycle) to the garbage bin room located on each residential level. Waste will go down to bin room via the chute and recycle waste goes to the two bins for cardboard and glass / containers. An on site Caretaker or Building Manager will be responsible for transferring the rubbish and recycling bins from the bin room in the basement level and each residential levels to the bin collection/presentation area on collection day (refer to ground level drawing for area). Council's contractor will service rubbish and recycling bins from the collection/presentation area and return the bins to that place after collection. The on site Caretaker or Building Manager will return the empty rubbish and recycling bins to the bin rooms.
