Subject: DA Reference DA2020/0661 - Proposed Mobile Phone Tower - John Fisher Park,
North Curl Curl 2099

I wish to register my objection to the above on the grounds of its complete unsuitability to the location proposed.

The science is still out on the questions surrounding radiation effects from such a monstrosity in an area frequented by so many people for sport and recreation. In addition the seemingly blind drive to advance technology at any cost in such a beautiful natural environment enjoyed by so many in so many different ways, is totally unacceptable in all the circumstances.

Northern Beaches Council must ensure that a scarce resource such as John Fisher Park has to be protected against technological vandalism at all costs and, for this reason, the Development Proposal concerned should be declined.

L.Gordon Latimer
