Subject: Objection DA2017/1274 -52 Cabbage Tree Road, Bayview.

Attention Ms Haidari

I note that the date for submissions has passed, however I have been travelling so trust that my late response will be accepted.

The amended application has changed little from the original and many of the purported concessions appear to have little reduction on the overall impact and incompatibility of the development.

The community is unfortunately divided, however a clear objective assessment of the compatibility of the development can only conclude that the application should again be rejected.

Kind regards
Peter Altona
