RE: Mod2021/0005 - 1858 Pittwater Road CHURCH POINT NSW 2105

I Have no objection to the alteration of the bin and
Storage area having it enclosed will minimise the local wildlife
Getting into the rubbish bins
As for the fire stairs I have no objection as the structure is old and probably doesn't meet
current codes
I do object to addition of an awning and low wall and additional seating
proposal for the western side of the building as will encroach onto the public space and create a
impingement on the existing public space
