RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Life is not all about making money and getting cosy with the developers. Our wildlife is important too and deserves a corridor along which to move with all the plants and water they need to survive.

We live in a very selfish world and we must think of the bigger picture, ultimately we need the natural environment for our own survival.

Please do not let this development go ahead.
