RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to the amended plans for DA2017/1274:

This proposal will still destroy 5 acres of the wildlife corridor and remove more than 140+ remnant trees and threaten 8 endangered species including Powerful Owls.

I am a resident of Manly Vale and we are currently living with the destruction to the bushland around Manly Dam as a result of the Manly Vale Public School development. The nature area next to the school was the home to threatened species and now it either a building or an Asset Protection Zone. Either way there is no wildlife. The promises of the developer have been broken in so many ways - fencing of environmental areas, water drainage, species protection, nest boxes, access, environmental training, consultation, removal of wildlife corridor, re-planting with natives - the list goes on.

Please do NOT allow the Bayview Wildlife Corridor to suffer the same fate! This development will cause irreversible damage to the Bayview wildlife corridor and I request it be stopped.
