**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099**

To whom it may concern, I am writing to object and oppose the proposal of a new Optus phone tower on John Fisher Park. This is precious open space undergoing rehabilitation. It is NOT a space to be filled with ugly infrastructure which will be over 25 metres and is likely to have a serious impact on the vegetation, never mind the EMF radiation exposure to all its local citizens. This is a wonderful community space and a tower of this size is only going to attract more carriers and more radiation pollution in the future. The NSW Government has a strategic plan for managing crown land, which includes - expand green space, sustainable quality of life and climate change resilience. If this is what they stand by, this strategy doesn't support the installation of a mobile phone tower. Yours sincerely, Amy Down
