Dear Sir

DA 2017/1274 – Retirement Village development, Bayview Golf Course

We wish to register our objection to the above development because of:

- the scale of the project is out of character with the area and will reduce much needed open space;
- the destruction of existing wooded area and interference with the local wildlife;
- there are already 17 retirement villages within 10klms of this site;
- possible interference with ground water supplies and negative affect on flooding in the area.

Yours faithfully

GR & KE Nielsen
