**RE: DA2019/1119 - 4 / 0 Bennett Street CURL CURL NSW 2096**

We strongly object to the proposal for a weekly market at the Harbord Bowling Club. Not only are markets prohibited under the land zoning/land use permissibility the following concerns is of significant issue.

Bennett St and surrounding roads are already too congested for the increased vehicle and foot traffic this will generate. This is a quite residential area with many families with young children. There would be an increase in traffic danger, noise and general disturbance which in addition to the sporting activities on a Sunday would make the streets a traffic/pedestrian nightmare.

Please adhere to the land zoning rules of the area and the rights of neighbors wanting to maintain an orderly place to live in rejecting this application.
